

OFFICIAL NOTICE

Determining the final grade for Master's Degrees

The final grade for FCH Master's degrees is equal to the mean obtained from the following weightings:

- a) Weighted average of all curricular units attended in the degree – 30%
- b) Grade obtained in the dissertation, internship report or project – 70%.

For Master's degrees in Psychology in Business and Economics and in Psychology of Wellbeing and Health Promotion, the final grade is calculated as follows:

- a) Weighted average of all curricular units attended in the degree – 30%
- b) Grade obtained in the internship report – 35%
- c) Grade obtained in the dissertation – 35%

This official notice applies to all students who enrol in FCH Master's degrees as of September 2019.

Lisbon, 9 September 2019.
